

**Request to Donate a Park Bench to
Avon Town Hall Park**

I would like to donate a six-foot park bench made from recycled materials in honor of my recently deceased mother and sister.

My mother, who passed away this past April, loved to come to Avon Town Park. She enjoyed watching the birds on the pond and the other wildlife. As I wheeled her around in her wheelchair, she always wanted me to pull her closer to smell the flowers. Mom enjoyed the fall leaves. My sister who passed in June, although she didn't come to the park, enjoyed nature in her back yard. Both were people watchers

I propose the bench to be the same as those that are behind the Town Hall building. (See exhibit A). Based on how much they both loved nature and people watching, I would like it strategically placed across the pond from the "200" at the "T" so you can see the pond and the hillside (See exhibit B).

An appropriately sized plaque, I request be placed on the end with the verbiage listed below.

**Dedicated in the Memory of
Ramona McCreary and Freddie Klagstad
With Love from the McCreary Family**

If you feel something else would be more beneficial, such as a picnic table, I would be open to discussion.

Please consider my request.
